Choice4™

DELAYED SETTLEMENT CHECK CASHING

Choice4™ offers casinos the convenience of accepting E-check transactions while allowing selected customers to extend the term of settlement by 7, 14, 21 or 28 days. The process is as simple as a standard E-check, with the addition of selecting the desired settlement term. Customers can chose to use one of up to four stored personal accounts. Global Payments then initiates a debit to the customer's designated checking account and a settlement the casino's funding account on the agreed-upon date. Choice4 also eliminates the risk of returned checks, as every approved transaction is 100% guaranteed by Global Payments.
