

HomeCurrencyPay

A New Opportunity For Your Business

HomeCurrencyPay offers a new opportunity to welcome potentially high spending international cardholders who prefer to pay for purchases in their home currency. Whether they are on holiday or away on business, they can be given the choice of paying in their home currency. This can be a very influential incentive for them to shop with you. Your customer will know exactly how much they have spent in their home currency without having to do any mental arithmetic*.

HomeCurrencyPay is straightforward to use and supports extensive currencies. Your terminal will automatically detect a supported currency on the card being used and will present the cardholder with the option of which currencies they can pay in. Their account will be debited in their home currency if chosen; you will still be credited in Sterling regardless of their choice. HomeCurrencyPay has no impact to the settlement process.

There are no set-up costs or recurring fees. We'll provide you with everything you need to deliver this great choice to your customers.

In addition, every time a customer completes a purchase in their home currency you will receive a revenue share, reflected in your monthly statement. This can lead to your operational costs going down and your profits going up.

Benefits To You

**Lines are open Monday to Friday, 9am - 6pm, excluding public holidays. Calls may be recorded. We also provide a Textphone service on 0345 602 4818.

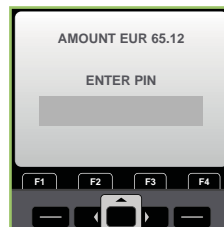

HomeCurrencyPay

How It Works

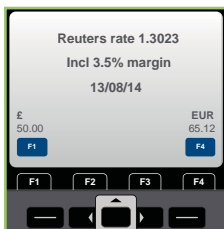

HomeCurrencyPay is fully automated and the software does the work for you:

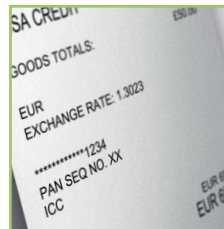

Step 1 - Insert or swipe the international Visa card or MasterCard. The software will identify the home currency and convert it automatically.

Step 3 - The customer enters their PIN to process the Chip transaction or provides a signature to complete the swiped transaction.

Step 2 - The customer presses the corresponding key on the terminal to pay in their home currency or to pay in Sterling. The currency conversion rate is displayed at the top of the screen.

Step 4 - Complete the payment transaction and give your customer a copy of the receipt which shows the Sterling purchase price, the exchange rate and the final price in the cardholder's home currency*.

The benefits of HomeCurrencyPay can be achieved in any payment environment, be it face to face, mail/telephone orders and online.

It couldn't be easier - sign up for our HomeCurrencyPay product and we'll provide you with everything you need.
